

Learning Goals for Core Courses	1	Micro Theory		Macro Theory		Econometrics		Upper Division Courses								
		100A	101A	100B	101B	140	141	103	121	122	124	136	155	C181	182	191
Critical Thinking Skills																
CT1: Understand everyday economics problems	X	X	X	X	X			X	X			X			X	
CT2: Use economic theory to understand and evaluate policy proposals	X	X	X	X	X			X	X			X		X	X	
CT3: Compare arguments		X	X	X	X							X		X	X	X
CT4: Role of assumptions		X	X	X	X	X		X	X			X		X	X	X
Quantitative Skills																
QT1: Understand the role of empirical evidence in evaluating economic problems							X	X					X			X
QT2: Interpret results							X	X					X			X
QT3: Conduct statistical analysis							X	X					X			X
QT4: Gather or obtain research data							X								X	X
Problem Solving Skills																
PS1: Solve problems with clear solution	X	X	X	X	X			X				X		X	X	
PS2: Solve problems without clear answer								X				X		X	X	
Specialized knowledge in fields																
SP1: Specialized knowledge in fields											X	X		X		
Communication Skills																
CS1: Communicate effectively about economic issues	X	X	X	X	X						X	X		X		X
CS2: Formulate and support written argument											X	X				X
CS3: Oral presentation											X				X	
Lifelong Learning Skills																
LL1: Information databases																
LL2: Primary data Sources	X	X		X	X											X
LL3: Understand economic news	X	X	X	X	X							X		X	X
